

# WHOLE LOT OF ROSIE

► **Have you ever flirted with the idea of reloading but felt unsure how to start?**

The pastime is often thought of as a dark art which is why Edgar Brothers has launched a series of fun, tongue-in-cheek videos to help shooters get started with Hornady products.

Not only do the 'Reloading with Rosie' videos debunk various myths surrounding homeloading, they show the step-by-step processes in a lively, humorous way, and ultimately explain how anyone can easily load their own rifle ammunition using Hornady's Lock-N-Load system.

Each of the five videos lasts between three and five minutes, and explains the process from what kit you need, to finessing the ammunition with the correct powders, projectiles and primers in an intuitive manner. The

videos feature model Rosie Jones, familiar from the Edgar Brothers Hotshots Calendar, as she learns how to reload. Joining

Rosie in the videos to offer some tips and tricks are some of the UK's most important authorities on reloading such as Laurie

Holland, Mike Roberts, Vince Bottomley and Stuart Anselm.
